CRAWLER DOZERS

TOPPABLE.

POWER SURGE

GET CHARGED UP ABOUT PRODUCTIVITY.

Whether you're into site development or roadbuilding, the 700L and 750L deliver the performance, reliability, and ease of operation you need.

Quiet comfort

Completely redesigned cab offers better visibility, more spacious comfort, and less noise than its K-Series counterpart, along with options such as automatic temperature control (ATC) system, premium heated/ventilated seat, and rearview camera.

MOST HORSE-POWER IN THEIR CLASS

Don't settle for average grades

Standard electrohydraulic (EH) controls make it easy to add the grade-control system of your choice. When you opt for SmartGrade Ready including Slope Control, it's easy to upgrade to the fully integrated John Deere SmartGrade machinecontrol system.

The choice is yours

Looking for the most powerful dozer in its class? Take a close look at the 750L. Or if you need something slightly smaller but still extremely capable, consider the 700L, with more power and blade capacity than the previous 700K model.

More power to you

Delivering six-percent more horsepower than the 750K, the 750L powers through. The 700L provides more horsepower than the 700K. Both models have the highest horsepower and largest blade capacity in their size class.

More reliable routing

Routing of the electrical and hydraulic systems has been significantly simplified to nearly eliminate wear points, improving reliability and ease of maintenance over earlier models.

Push productivity to the limit

Combining more power than any dozer in its class with additional weight over its predecessor, the 750L is 12-percent more productive in backfilling applications than its closest competitor.

Bigger blades

New 161-inch-wide blade option on the 750L allows you to cover larger jobsites in fewer passes. Integrated welded-on spill sheet on the 700L increases blade capacity up to 24 percent compared to 700K blade options.

Durable diesel

Unlike many competitor machines that run four-cylinder engines, the 700L features a reliable six-cylinder 6.8L engine that delivers more power than the previous 700K model.

Turn, turn, turn

Independent track control speeds up or slows down each side, for smooth, full-power turns. Automatic power boost helps carry big blade loads through turns.

Slope Control

Optional SmartGrade Ready including Slope Control provides simple-to-use grade control that allows operators to set and hold a grade or slope through terrain changes. It helps both new and veteran operators to hold grade with less effort, fewer corrections, and minimal adjustments to the blade.

A smart choice

SmartGrade features next-generation components and integration, enabling the highest levels of productivity and grading performance.

The power of SmartGrade

Unlike traditional aftermarket grade-control systems that are prone to theft, damage, and complicated installation, purpose-built John Deere SmartGrade Dozers combine powerful mastless technology with our track load-sensing system. These highly productive crawlers feature a fully integrated grade-control system that is easy to set up and run. And they're backed by the Deere dealer network and supported through features like wireless data transfer and remote display access.

Extend your workday

Optional high-output LED lighting package provides additional illumination when you need to work past or before daylight.

Outside dozer blade

With heavy-duty high-profile push beams and a three-position pitch-adjustable semi-U blade, the outside dozer (OSD) blade-equipped 750L Dozer delivers exceptional durability and high-production performance. Heavy-duty crossmembers provide solid lateral support and allow a clear view of the bottom of the blade. Available turnbuckle pitch jack helps fine-tune blade pitch for improved ground penetration and load carrying.

LOOK FORWARD TO MORE PRODUCTIVITY

LET'S SEE WHAT YOU CAN DO.

Boasting better visibility than earlier models and a host of creature comforts, the quiet, spacious cab will help you set your sights (and jobsites) on getting more done.

See what you've been missing

A wider expanse of front glass; a lower, streamlined hood; and larger doors provide better visibility to the blade and the worksite all around.

Quality seat time

Both the standard deluxe fabriccovered seat and the optional premium leather-accented heated/ ventilated seat feature pan tilt, pan extend, lumbar adjustment, and air suspension with full damping capability.

Peace and quiet

On the 700L, new rubber-encased viscous cab mounts help reduce noise by over 50 percent compared to the 700K. They also effectively isolate operators from vibration to improve the ride.

Low-effort control

Updated ergonomic joysticks provide intuitive, low-effort control of the transmission, hydraulics, and rear implement.

Set and forget

Optional automatic temperature control (ATC) system allows operators to simply select a desired temperature instead of fiddling with knobs to get comfortable.

Keep close tabs on the machine

Large, easy-to-navigate monitor provides intuitive, push-button access to a wealth of machine information, including temperatures, pressures, and diagnostics. Opt for a rearview camera to display the action behind the machine on the color monitor.

Take total control

Exclusive Total Machine Control (TMC) monitor lets an operator quickly change between machine presets with the simple push of a button, or independently adjust decelerator mode and response, forward/reverse ground-speed ranges, steering modulation, F-N-R shift rate, and forward/reverse speed ratio.

L-SERIES DOZERS WON'T LET UP

OR LET YOU DOWN.

You can count on these dependable workers to tackle your toughest tasks. When you know how they're built, you'll see what the L-Series can take on.

Built tough

The 700L and 750L have been beefed-up with thicker sheet metal; larger doors and hydrostatic pumps; a sealed engine compartment; a simplified, heavier-duty mainframe; and a more robust c-frame-to-mainframe joint (750L only) than previous models.

Undercarriage options

Both models come standard with a durable heavy-duty undercarriage. Or opt for Extended Life undercarriage with SC-2™-treated bushings, a parts coating that delivers up to twice the wear life. Maximum Life undercarriage, with larger components and stronger seals, is available on the 700L.

Save fuel

Standard Eco mode adjusts engine power and transmission settings automatically based on load while maintaining ground speed, improving fuel economy up to 15 percent for both the 700L and 750L with no loss of productivity. Auto-idle also helps save fuel by reducing engine speed when the dozer isn't moving. Auto shutdown turns the engine off after an operator-determined period of idling, further minimizing fuel use while reducing wear on components.

Clear the way

Factory-installed limb risers and screens allow you to put this dozer to work in forestry, land-clearing, and other challenging applications.

NEVER BACKDOVIVI.

BURN LESS, EARN MORE.

KEEP FUEL AND OPERATING COSTS DOWN.

Minimal maintenance

Enlarged service doors provide quick access to conveniently located checkpoints and filters. Extended hydraulic and hydrostatic oil-change intervals from 2,000 to 4,000 hours help further minimize maintenance and expense.

Reversing cooling fan

Hydraulic reversing fan (standard on the 750L, optional on the 700L) automatically back-blows the cooler cores at preset intervals. Or simply press a button when conditions demand more frequent cleaning.

Now that's smart thinking

When equipped with optional SmartGrade™ Ready including Slope Control, the 700L and 750L have the versatility of a 2D system combined with 3D accuracy, helping optimize the productivity of your operation.

Easy cooling-package cleanout

Redesigned layout of the single-plane cooling system promotes efficient airflow, extending intervals between cleanouts.

Get valuable insight with

JOHN DEERE WORKSIGHT™

The John Deere WorkSight suite of construction technology delivers **Productivity Solutions** to help you get more done, more efficiently. The in-base, five-year JDLink™ telematics subscription provides machine location, utilization data, and alerts to help you maximize productivity and efficiency. Other productivity solutions including grade-management and payload-weighing options are also available.

To maximize uptime and lower costs, JDLink telematics also enables **John Deere Connected Support.™** John Deere's centralized Machine Health Monitoring Center analyzes data from thousands of connected machines, identifies trends, and develops recommended actions, called Expert Alerts, to prevent downtime. Dealers use Expert Alerts to proactively address conditions that may otherwise likely lead to downtime. Your dealer can also monitor machine health and leverage remote diagnostics and programming capability to further diagnose problems and even update machine software without a time-consuming trip to the jobsite.

700L

SPECIFICATIONS

While general information, pictures, and descriptions are provided, some illustrations and text may include product options and accessories NOT AVAILABLE in all regions, and in some countries products and accessories may require modifications or additions to ensure compliance with the local regulations of those countries.

Engine	700L XLT / 700L LGP
Blade Type	Power-Angle-Tilt (PAT)
Manufacturer and Model	John Deere PowerTech™ PVS 6068
Non-Road Emission Standard	EPA Final Tier 4/EU Stage V
Displacement	6.81 (414 cu. in)

SAE Net Rated Power
Aspiration
Aspiration
Air Cleaner

Dual-stage dry tube with tangential unloader

Cooling

Type Variable-speed suction fan with optional reversing feature

47 573 kPa (6,900 psi)

Engine Coolant Rating —37 deg. C. (–34 deg. F)

Engine Radiator 10 fins per in.

Powertrain

TransmissionAutomatic, dual-path, hydrostatic (HST) drive; load-sensing feature automatically adjusts speed and power to match changing load conditions; each individually controlled track is powered by a variable-displacement piston pump and motor combination;

ground-speed selection buttons on single-lever steering and direction control; reverse speed ratio is fully operator customizable;

decelerator pedal provides infinite speed control from full speed to complete stop

System Relief Pressure

Travel Speeds

Forward and Reverse 8.9 km/h (5.5 mph) Maximum (optional) 9.7 km/h (6.0 mph)

Steering Single-lever steering, speed, direction control, and counter-rotation; full power turns and infinitely variable track speeds

provide unlimited maneuverability and optimum control; HST steering eliminates steering clutches and brakes

Final Drives Triple-reduction final drives mounted independently of track frames and dozer push frames for isolation from shock loads

Total Ratio 33.59 to 1

Drawbar Pull

 Maximum
 200 kN (45,050 lb.)

 At 1.9 km/h (1.2 mph)
 131 kN (29,500 lb.)

 At 3.2 km/h (2.0 mph)
 83 kN (18,600 lb.)

Brakes

Service HST (dynamic) braking stops

the machine whenever the direction-control lever is moved to neutral or the decelerator is depressed to the detent

Parking Exclusive safety feature engages wet, multiple-disc

stops, the decelerator is depressed to the end of travel, or motion is detected while the transmission control is in neutral; machine cannot be driven with brake applied, minimizing wearout; spring

Hydraulics

Type Open-center hydraulic system with fixed-displacement gear pump

applied, hydraulic release

Pump Displacement 47.5 cc System Relief Pressure 22 063 kPa (3,200 psi) Maximum Flow at Unloaded High Idle 95 L/m (25 gpm)

Control 3-function electrohydraulic (EH) joystick with proportional roller-angle function

Electrical

Voltage 24 volts Capacity

Battery 950 CCA Reserve 175 min.

Engine	750L XLT / 750L LGP 750L	
Blade Type	Power-Angle-Tilt (PAT) Outside Dozer (OSD)	
Manufacturer and Model	John Deere PowerTech™ PVS 6068 John Deere PowerTech PVS 6068	
Non-Road Emission Standard	EPA Final Tier 4/EU Stage V EPA Final Tier 4/EU Stage V	
Displacement	6.8L (414 cu. in.) 6.8L (414 cu. in.)	
SAE Net Rated Power	131 kW (175 hp) at 1,700 rpm 131 kW (175 hp) at 1,700 rpm	
Aspiration	Turbocharged with charge-air cooler Turbocharged with charge-air cooler	
Air Cleaner	Vacuum-aspirated dual-element dry canister Vacuum-aspirated dual-element dry canister	
Cooling	750L XLT / 750L LGP / 750L	
Type	Variable-speed suction fan with automatic reversing	
Engine Coolant Rating	–37 deg. C. (–34 deg. F)	
Engine Radiator	10 fins per in.	
Powertrain		
Transmission	Automatic, dual-path, hydrostatic (HST) drive; load-sensing feature automatically adjusts speed and power to match chaload conditions; each individually controlled track is powered by a variable-displacement piston pump and motor combin ground-speed selection buttons on single-lever steering and direction control; reverse speed ratio is fully operator customi decelerator pedal provides infinite speed control from full speed to complete stop	ation;
System Relief Pressure	47 574 kPa (6,900 psi)	
Travel Speeds	5, 1 4 (0)500 [20]	
Forward and Reverse	9.7 km/h (6.0 mph)	
Maximum (optional)	11.0 km/h (6.8 mph)	
Steering	Single-lever steering, speed, direction control, and counter-rotation; full power turns and infinitely variable track speeds	c
Steering	provide unlimited maneuverability and optimum control; HST steering eliminates steering clutches and brakes	3
Final Drives	Double-reduction, planetary final drives mounted independently of track frames and dozer push frames for isolation fro shock loads	m
Total Ratio	46.41 to 1	
Drawbar Pull	70.71 (6)	
Maximum	259 kN (58,250 lb.)	-
At 1.9 km/h (1.2 mph)	255 kN (37,500 lb.) 55 · 240	
At 3.2 km/h (2.0 mph)	107 kN (27,300 10.)	
Brakes	750L Drawbar Pull vs. Ground Speed	
Service	LIST (duppmin) hydring stone	
Service	HST (dynamic) braking stops the machine whenever the	
	direction-control lever is moved	
	to neutral or the decelerator is depressed to the detent Exclusive safety feature The decelerator is depressed to the detent is determined by the detent is determined by the	
D. J.	is depressed to the detent Drawbar Pull Load (lbf) — Both Sides	
Parking		
	engages wet, multiple-disc	
	brakes whenever the engine	
	stops, the decelerator is	
	depressed to the end of travel,	
	or motion is detected while	
	the transmission control is in	
	neutral; machine cannot be	12
	driven with brake applied,	
	minimizing wearout; spring GROUND SPEED	
	applied, hydraulic release	
Hydraulics	750L XLT / 750L LGP 750L	
Type	Open-center load-sense hydraulic system with variable-displacement piston pump	
Pump Displacement	63 cc 63 cc	
System Relief Pressure	24 993 kPa (3,625 psi) 24 993 kPa (3,625 psi)	
Differential Pressure	1896 kPa (275 psi) 1896 kPa (275 psi)	
Maximum Flow at Unloaded High Idle	130 L/m (34 gpm) 130 L/m (34 gpm)	
Control	3-function electrohydraulic (EH) joystick with proportional 2-function EH joystick roller-angle function	
Electrical	750L XLT / 750L LGP / 750L
