K-SERIES 950K CRAWLER DOZER

ROAD WARRIOR.

ATTACKS ROAD BUILDING AND OTHER APPLICATIONS

The 950K rounds out the John Deere dozer line with an excellent combination of power and efficiency. This highly capable crawler puts more power to the ground than previous models. And the Eco mode feature regulates engine rpm to burn less fuel than conventional powertrains.

Eco mode

Standard Eco mode burns up to 20-percent less fuel than conventional torque-converter transmissions. It automatically adjusts engine rpm and transmission settings based on load without sacrificing performance.

Grade-control system ready

The 950K Dozer is factory equipped with fully integrated Topcon 3D-MC² grade-control components and is also set up for Trimble and Leica systems. Simply plug in the components, calibrate, and go to work.

Low-effort control

A single lever provides low-effort control of steering, forward/reverse travel, and ground speed. Employing a thumb-actuated travel-speed switch, the lever is also detented so it doesn't require an operator's constant touch or attention.

More power to the ground

Hydrostatic transmission delivers 15-percent more power to the ground than conventional torque-converter transmissions.

NEVER ENOUGH.

UNPRECEDENTED BI ADE PERFORMANCE

Designed and manufactured at the world-class John Deere Dubuque Works, the 950K is the largest crawler dozer on the market to be equipped with a six-way power/angle/tilt (PAT) blade*, enabling impressive levels of dozing and finish grading. Increased engine power combined with the versatility of the PAT blade allow this single production-class machine to work where multiple pieces of equipment were needed to get things done before.

*PAT blade available only with LGP track configuration.

Heavy-duty power

An additional 3,800 lb. of machine weight with PAT blade durably strengthens the C-frame. Increased engine power of 280 hp and extended final drives help maintain full machine muscle and blade speed.

High-mount cylinders

PAT blade-lift cylinders feature a highmount design for commonality with the structures and cooling package of the 950K outside-dozer (OSD) blade, easing fleet maintenance and component costs.

Loaded for productivity

8.6-cu.-yd. PAT blade capacity enables you to doze, grade, and move more, more capably.

Cut a wider swath

PAT blade width of 184 in. covers more ground in fewer passes. Overall machine length with optional triple-shank ripper is 7-in. shorter with PAT, for greater jobsite maneuverability.

Pitch perfect

Adjustable to three mount locations, blade pitch can be controlled from the cab via optional hydraulic power pitch. Programming preset blade-pitch positions is effortless with the push-button-activated return-to-pitch feature.

Angle of attack

Inspired by pipeliners, the redesigned mechanical-angle blade is built by John Deere to withstand the most demanding applications on pipeline rights-of-way.

Ride in style

Creature comforts in the fully enclosed cab include low-effort controls that deliver reliably predictable response, enhanced LCD color monitor featuring pushbutton access to a wealth of machine info, durable sealed-switch module that enables fingertip control of machine functions including keyless start, deluxe suspension high-back adjustable seat, and easy-toappreciate HVAC system.

Stay on track

Track on ground of 126.5 in. for the standard configuration and 135.1 in. for LGP provides reliable stability in difficult terrain.

Programmable return to pitch

Hydraulic dual-tilt option allows the operator to control blade pitch from the cab — perfect for applications where pitch must be adjusted multiple times in a single push. Using programmable return-to-pitch settings, the operator can preset blade-pitch positions, which can be activated at the touch of a button.

Increased productivity

The 950K delivers exceptional productivity in slot trenching, ripping, and spreading applications.

Efficient ripping

More track on the ground combined with efficient power management adds up to increased ripper productivity. Triple-shank ripper can be pitched on the go, further boosting productivity.

Configured for your application

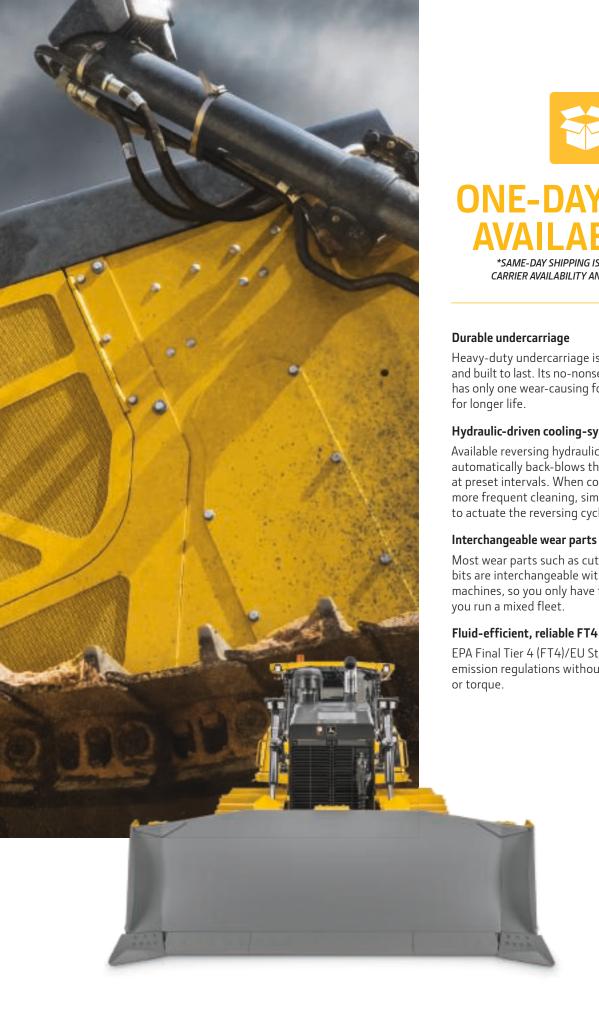

Rock racks, blade skins, and push plates are now available as options from the factory.

DESIGNED AND MANUFACTURED IN THE U.S.A.

The 950K was designed and built with state-of-the-art tools and techniques by a quality-conscious workforce at our world-class facility in Dubuque, Iowa. And it's backed by our legendary dealer network of parts and service support.

ONE-DAY PARTS

*SAME-DAY SHIPPING IS CONTINGENT ON CARRIER AVAILABILITY AND TIME OF ORDER.

Heavy-duty undercarriage is sealed, lubricated, and built to last. Its no-nonsense oval-track design has only one wear-causing forward-travel flex point,

Hydraulic-driven cooling-system fan

Available reversing hydraulic-powered fan automatically back-blows the cooler cores at preset intervals. When conditions demand more frequent cleaning, simply press a button to actuate the reversing cycle.

Most wear parts such as cutting edges and end bits are interchangeable with other competitive machines, so you only have to stock one part if

Fluid-efficient, reliable FT4 diesel

EPA Final Tier 4 (FT4)/EU Stage IV engine meets emission regulations without sacrificing power

ONE-STOP SHOP

WE'VE GOT YOU COVERED.

Simple to service

Access to dipsticks, fill tubes, maintenance-free batteries, and vertical filters is wide open. Sameside grouped service points make quick work of the daily routine.

Quick refills

Fast-fuel and quick fluid-service options help maximize uptime while ensuring clean refills — perfect for high-hour, nonstop applications and in environmental areas that are highly regulated.

Standard tilt cab

Operator station tilts a full 70 deg. in only minutes, for wide-open drivetrain-component access.

Backed to the max

The 950K Dozer is fully supported by the legendary John Deere dealer network.

Auto-idle and auto shutdown

Auto-idle automatically reduces engine speed when the machine is not moving and no functions are active. Auto shutdown turns off the engine after extended inactivity.

Keep downtime down with

JOHN DEERE CONNECTED SUPPORT™

Standard JDLink™ telematics with five years of cellular service enables your dealer to monitor your machine's health and react quickly to alerts, often before you even know there is a problem. They can also leverage remote diagnostics and programming capability to further diagnose problems and even update some machine software without a time-consuming trip to the jobsite. At the same time, data from thousands of connected machines flows through John Deere's central Machine Health Monitoring Center, allowing our specialists to identify trends and develop new and improved preventative maintenance and repair protocols that

Get valuable insight with

JOHN DEERE WORKSIGHT™

John Deere WorkSight is an exclusive suite of telematics solutions that increases uptime while lowering operating costs. At its heart, JDLink machine monitoring provides real-time utilization data and alerts to help you maximize productivity and efficiency while minimizing downtime. Remote diagnostics enable your dealer to read codes and record performance data without a trip to the jobsite.

Additional equipment

Key: ● Standard ▲ Optional or special

See your John Deere dealer for further information.

950K Engine

- Meets EPA Final Tier 4/EU Stage IV emissions
- John Deere PowerTech™ PSS 6090
 9.0L engine
- Wet-sleeve cylinder liners
- Eco mode
- Exhaust stack, black
- Exhaust stack, chrome
- Electronic control with automatic engine protection
- Turbocharged and air-to-air aftercooled
- Dual-element dry canister with external rotary ejector precleaner
- Programmable auto engine shutdown
- Automatic turbo cool-down timer
- ▲ Severe-duty fuel lines and fittings
- ▲ Engine coolant heater, 120 volt
- 130-amp alternator

Cooling

- Engine coolant rated –37 deg. C
 (–34 deg. F)
- Automatic, programmable reversing fan
- Engine radiator, 8.5 fins per in.

Powertrain

- Dual-path hydrostatic (HST) transmission
- Selectable reverse-speed ratios
- Operator-selectable decelerator function (hydrostats and engine or hydrostats only)
- Single-lever steering with counterrotate function
- Full power turns with infinitely variable track speed
- HST (dynamic) service brakes
- Wet, multi-disc parking brake

Hydraulics

- Load-sense electrohydraulic (EH) system with variable-displacement piston pump
- 2-spool EH control valve for outside dozer (OSD)
- ▲ 3-spool EH control valve for OSD with single auxiliary
- 4-spool EH control valve for OSD with dual auxiliary

950K Hydraulics (continued)

- Hydrau™ All-Season Hydraulic Oil,
 -25 deg. C to 50 deg. C (-13 deg. F to 122 deg. F)
- A Hydrau™ XR Hydraulic Oil, -40 deg. C to 40 deg. C (-40 deg. F to 104 deg. F)
- Power pitch for OSD
- ▲ Hydraulic-winch-ready kit

STD LGP Undercarriage

- Heavy-duty undercarriage design
- Sealed track adjuster cavity
- Standard track OSD frame,2180-mm (86 in.) track gauge
- Extreme-duty shoes, 610 mm (24 in.)
- Extreme-duty shoes, 660 mm (26 in.)
- Extreme-duty shoes, trapezoidal, 610 mm (24 in.)
- Extreme-duty shoes, trapezoidal, 660 mm (26 in.)
 - Moderate-duty shoes, 760 mm (30 in.)
 - ▲ Moderate-duty shoes, trapezoidal, 760 mm (30 in.)
 - Moderate-duty shoes, 910 mm (36 in.)
 - ▲ Moderate-duty shoes, trapezoidal, 910 mm (36 in.)
- ▲ Full-length rock guards

Operator's Station

- Enclosed cab with air conditioner/heater
- Retractable seat belt, 76 mm (3 in.) (conforms to SAE J386)
- Air-suspension cloth seat
- ▲ Air-suspension heated deluxe seat
- AM/FM radio
- ▲ HVAC-powered precleaner
- Tilting cab
- 178-mm (7 in.) color, multi-language
 Primary Display Unit (PDU)
- Backup alarm
- 12-volt accessory plug
- Keyless start

950K Overall Vehicle

- Environmental drain package
- Fluid-sample valves
- JDLink™ wireless machine communication system (available in specific countries; see your local dealer for details)
- Quick service ports (HST, hydraulic, and engine oil, and coolant)
- ▲ Fast-fuel system
- Halogen lights (6 total): cylinder mounted (2); rear cab mounted (2); and roof mounted, front facing (2)
- Reflectors, rear facing (2)
- ▲ LED work lights (6)
- ▲ Deluxe LED work lights (10)
- ▲ Beacon light
- Grade-control-ready EH hydraulics
- ▲ Topcon-ready interface package
- ▲ Trimble-ready interface package
- ▲ Leica-ready interface package

Attachments

- ▲ U Blade, 3886 mm (153 in.)
- ▲ Semi-U Blade, 3911 mm (154 in.)
- ▲ Mechanical-Angle Blade, 4509 mm (178 in.)
- ▲ U Blade, 3886 mm (153 in.), with rock rack and wear plate
- ▲ Semi-U Blade, 3911 mm (154 in.), with rock rack and wear plate
- Semi-U Blade, 3911 mm (154 in.), with push plate
- Power-Angle-Tilt Blade, 4674 mm (184 in.)
- ▲ LGP Semi-U Blade, 4572 mm (180 in.)
- ▲ LGP Straight Blade, 4509 mm (178 in.)
- ▲ LGP Mechanical-Angle Blade, 5184 mm (204 in.)
- Standard end bits and cutting edges
- ▲ Heavy-duty end bits
- ▲ Heavy-duty cutting edges
- ▲ Cast end bits
- ▲ Ripper, multi-shank
- ▲ Rear counterweight, 1113 kg (2,454 lb.)
- Retrieval hitch
