

# Operations Center™ Seasonal Training

**vnet**  
PRECISION FARMING

**RDO**  
EQUIPMENT

4 March 2024 | 5.30pm  
Royal Hotel, Singleton

Light meal &  
refreshments  
provided

Join us as we host seasonal training program for selected VIP growers in the Hunter region.

1. Start your Precision Ag data journey and unlock the full potential from your John Deere investment
2. Document all you planting and crop inputs, plus crop yield
3. Monitor equipment for increased productivity
4. Use the data to increase profit and reduce risk

## SESSION 1: Setup

Monday 4 March

1. Operations Center™ Overview
2. Operations Center™ Login
3. Team and Equipment setup
4. Farm setup
5. RDO Mydealer setup

## SESSION 2: Input Data

Monday 22 April

1. Work Planner setup
2. Documenting work and product outputs
3. Maintenance planning and setup
4. Geofences and Curfews

## SESSION 3: Analyse and Review Data

Monday 10 June

1. Reviewing performance data
2. Machine analysis data
3. Yield recording
4. Performance improvement

VNET is committed to supporting you to get the most out of this training program. To ensure the best possible outcome for your operation, we ask that you commit to the pre-work outlined below.

### VNET'S COMMITMENT

We will support you to be self sufficient in Operations Center™ use.

1. Remote account setup support from VNET Specialist before Session One. We will provide templates and show you how to collect the information needed to be able to create a Setup File in Operations Center™
2. Several VNET Specialists on hand for one-on-one support at the four regional training sessions
3. VNET follow up between each of the training sessions

### GROWER'S COMMITMENT

1. Completed pre-course preparation work
  - Have a list of your Client/Farm/Field names
  - Identified boundary and guidance files that are usable in your master Setup
  - Completed equipment list and recorded dimensions from our templates provided
  - Have a crop varieties and products list
  - Have completed Operations Center™ T&C's and association of all machine JD Link MTG's to your MyJD Organisation
  - Have installed MyOperations app on your phone
2. Willing to participate in knowledge sharing with other growers in your local training group
3. Attend all three sessions across the season
