

# NEVER IDLE

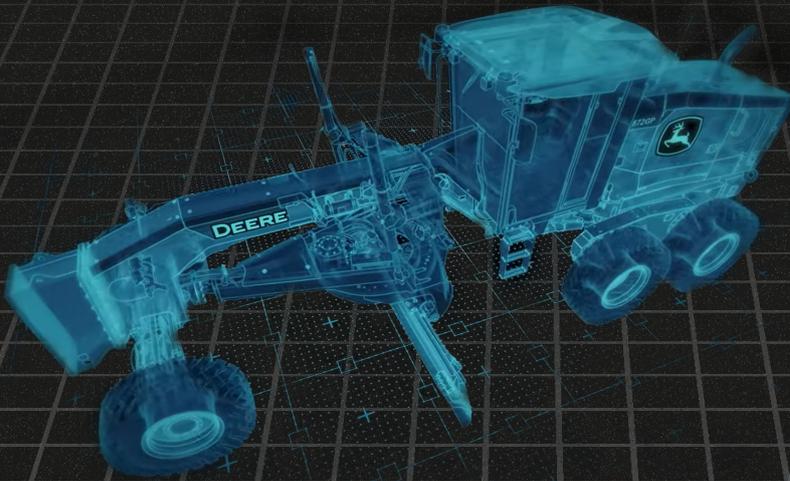

## Free 500-Hour Trial. Make It Count.

Experience smarter, smoother, more precise grading - built directly into your G-Series Motor Grader.

Every G-Series machine is designed to help operators work more confidently and productively. The Automation Suite brings together a set of intelligent features that reduce fatigue, minimise rework, and keep your crew focused on the job - not the controls.

And with a 500-hour Automation Suite trial already active from the moment your machine was registered, you can experience the benefits firsthand without any setup or activation required. The trial is running - now's the time to put automation to work.

At the end of your trial, you'll have the option to upgrade permanently and take advantage of our exclusive offer!
